Build a Penguin

Color before cutting.

Build a Penguin

Ready-colored pieces: cut only the outside outlines.

Your assembly guide

Arrange the pieces before adding glue. The picture is an illustration.

PUT IT TOGETHER

1. Choose a sheet and cut eight pieces.
2. Tuck flippers and feet behind the body.
3. Overlap the head at the top.
4. Add the belly patch and winter hat.
5. Check the layers before gluing.

8 cut pieces. Keep printed faces and decoration attached.

Mount on a separate background. Outer outlines are cuts; internal details are not.

Decorative stars around the example are not additional template parts.

Digitally checked; physical test print and final adult craft review are still recommended.
