Build a Turkey

Color before cutting.

Build a Turkey

Ready-colored pieces: cut only the outside outlines.

Your assembly guide

Arrange the pieces before adding glue. The picture is an illustration.

PUT IT TOGETHER

1. Choose the coloring or color sheet.
2. Cut six pieces on outer edges.
3. Place the body over the tail fan.
4. Tuck feet behind; add wings in front.
5. Arrange, then glue to a background.

6 cut pieces. Keep printed faces and decoration attached.

Mount on a separate background. Outer outlines are cuts; internal details are not.

Decorative stars around the example are not additional template parts.

Digitally checked; physical test print and final adult craft review are still recommended.
